# PLOWS BEGIN TURNING 45,000 ACRES OF COTTON

## Money For Farmers Due To Reach County Soon

Plows began turning under thousands of acres of Milam county cotton Tuesday when instructions were issued by County Agent Geo. Banzhaf to proceed to destruction under contracts made to the government.

In all about 45,000 acres will be destroyed. It was expected that checks covering the lease money due the farmers by the United States government would be in the hands of a majority of the farmers and within the month the government will have completed its payment to the growers.

Rainfall last week made it necessary to proceed at once if feed stuff is to be harvested this fall. Farmers are permitted to plant feed stuff but will not be permitted to offer it for sale.

Prospects for a short crop due to the lack of rainfall and the plowup has been overcome and the remaining cotton will improve the yield and offset somewhat the shortage in this county because of the drouth.

All contracts signed have been accepted by government in Washington. Money in payment for the leased acreage will be paid when the farmer has destroyed his cotton in accordance with the contract and inspection has been made.

## R. G. GRABEIN BECOMES CHEVROLET DEALER

Foremost among developments in local commercial circles this week was the sale of the Coleman Chevrolet Company to R. G. Grabein, automobile dealer, who began active management of the business on August 1.

The sale involves the agency for the Chevrolet automobile under General Motors franchise and one of the best agencies in Central Texas. Equipment of the Coleman Chevrolet Company has also been sold and will be a part of the new organization.

The business will be known as the Grabein Chevrolet Company and will maintain complete Chevrolet sales and service. The building formerly occupied by the retiring Coleman Chevrolet Company will be occupied by Mr. Grabein and his organization.

Mr. Grabein has been prominently identified with automobile sales in Cameron and Milam County for a number of years and until his purchase of the Chevrolet franchise here had for the past two years been an independent operator, engaged in sales of new and used cars, a business which succeeded under his management.

He will bring to the Chevrolet agency a wealth of experience both as a dealer and business man and his mny friends here and over the territory will be pleased to note his advance in the industry and that he has purchased this commanding agency.

This will be his third season in Cameron as head of the government cotton co-operative office.

### Man Found Dying; Struck By Car

Hearne, Texas, July 30.—Tom Favors, 73, was found on Highway 43 at the city limits with his head crushed, in a dying condition early Sunday. Bumper prints on legs indicated the man, discovered by a passing motorist, had been run down by a car. Death came before aid could be summoned. Favors, a resident of Hearne, leaves three daughters, Mrs. Lee Clark and Mrs. Elmer Reese of Hearne and Mrs. Pearl Beasley of Burleson county, three sons, Lane and Buell of Heare, Willie of Hanover, and other relatives at Gause, Cameron and Houston.

He was a brother of W. D. Favors of Cameron.

### Prison Term For Theft Auto Near Milano

Edwin Pierce of Houston was given two years in prison for theft of an automobile in court Monday. The car was stolen from Charles Williams near Milano.

On May 24 Pierce and a companion, William Lewis, were stalled for repairs in a car near Milano. Lewis injured his thumb trying to repair the machine and was brought to the Cameron Hospital by Mr. Williams who returned to the damaged car with Pierce. As he got out of the car Pierce drove away. He was arrested at Lyons. He was tried in Houston for car theft and given five years in prison.

### Dog Theft Cleared As Man Faces Indictment

Examining trial was held here and bond was fixed at $500. The case will be considered by the September term of the grand jury.

Smith asked Mr. Wolf to lend him three dogs. He was camped near Sharpe and said he wanted to buy them. Mr. Wolf did not receive the dogs back at his kennels and began an investigation. His search was aided by hunters over the state. One of the dogs was found in Smith's possession in Wharton while the other two were recovered in Austin county.

### "Gold Diggers of 1933" Opens at Milam Theatre Wednesday August 10th for 2 Days

Bros.' dramatic musical screen special and the most lavishly produced motion picture of the decade, opens Wednesday, August 9 and 10th at the Milam Theatre.

Hailed as a fitting climax to a season of exceptional entertainment values started by the presentation of the enormously popular "42nd Street," a few months ago, "Gold Diggers of 1933" has been acclaimed by critics and by the first audiences as the most spectacular and vital entertainment ever originated in Hollywood.

Eight players of stellar rank, headed by Warren Williams, Joan Blondell and Ruby Keeler take important parts in this production. Others include Dick Powell, Aline MacMahon, Guy Kibbee, Ginger Rogers and Ned Sparks. A new Busby Berkley chorus of 200 beautiful girls, achieves startling importance in the present picture in the most gorgeously staged ensembles ever conceived for stage or screen entertainment.

A vital and dramatic story of the people behind the production of a great Broadway show "Gold Diggers of 1933" would be a great picture even without the enhancement of the spectacular musical show settings. Combined with these it is said to present the greatest amusement value of this or and other year's production. Song numbers from the talented team of Harry Warren and Al Dubin, who are responsible for the hits in its predecessor, "42nd Street," will soon be heard and sung the world over.

"Gold Diggers of 1933" was directed by Mervyn LeRoy who has given the entertainment world pictures like "I Am a Fugitive From a

## National Recovery Act Compliance Begins Tues

A complete program of co-operation with President Roosevelt and his recovery act was inaugurated in Cameron Tuesday, August 1.

Without exception each division of the commercial group was formulating programs of co-operation and through agreements had immediately brought about changed hours of operation with shorter working time for employes.

In some instances, it is said, additional workers had been given jobs to insure full operation of both industry and store. Wage increases were not reported. In most instances higher wages are being paid than the minimum set down in the government regulations, however a few workers were entitled to increases under the scale announced by the President.

The Blue Eagle of the NRA was placarded over the business area being distributed along with posters and stickers from the local federal building.

The Chamber of Commerce and Retail Mercants Association, jointly called a meeting of the business men Thursday afternoon at five o'clock

## MILK PRICES ADVANCED TO CONSUMERS HERE

Milk prices to Cameron consumers have been advanced under a signed agreement by dairymen made this week and announced in the press. In all nine milk producers have signed the agreement and the slightly higher prices will be in effect beginning August 10.

The increase while small and is not burdensome on any consumer, has been made necessary by increased production as in all lines of business. Heretofore milk prices in Cameron have been lower than was consistent with good service and the margin of profit to which the producers were entitled.

The schedule of prices agreed to are in accordance with the government's plan to stabilize business and to stop destructive competition, a condition set out by President Roosevelt in his recent address before the United States Chamber of Commerce in Washington.

Milk consumers are urged to read the new price schedule and to take notice of their effect on August 10.

## MORRISON WINS FIGHT FOR THE TEXAS SCHOOLS

Texas public schools will operate full term for 1933-34 due to the work of W. A. Morrison of Cameron, member of the State Board of Education. He prevented the Board from paying the deficit from the last term out of the funds due the coming term. This was in defiance of a ruling by the Attorney General at Austin. Senator Bowers of Caldwell held the view of Mr. Morrison at the Lubbock meeting. Taking current revenues to pay obligations of past fiscal years is prohibited by the constitution, a fact the board members did not seem to know until brought to their attention by Mr. Morrison.

AUSTIN, July 31.—The Texas state board of education late today set the scholastic apportionment for 1933-34 at $16 per capita, the amount to be paid on the basis of 1,570,365 scholastics.

The amount allotted was the same as that appropriated for the current term. Of the current appropriation, however $6 remains unpaid, although it was estimated that $3 of this amount would be liquidated before September 1.

Action of the board followed several hours of argument on the procedure to be pursued.

W. A. Morrison of Cameron urged that the board set aside all moneys accruing to the available school fund during the fiscal year to the payment of the 1933-34 apportionment in defiance of the ruling of the attorney general's department holding that before any of the amount allotted for next year could be paid the unpaid balance on this year's apportionment must be liquidated.

### Trial of Harry Rogers Set For September 11

## Big Ballot On August 26 With Four Amendments To Constitution and 3.2 Beer And 18th Amendment Repeal

A copy of the official ballots for the state-wide voting on August 26 has been received by county headquarters of the Liberal Legion.

One carries the four constitutional amendments, including the one legalizing 3.2 per ct. beer. The other carries opposing list of delegates on the repeal question. It also carries instructions to voters as to how to register their wishes on repeal, by voting for the delegates listed for and against prohibition repeal.

#### Homestead Exemptions

One constitutional amendment is relative to the $3,000.00 exemption on homesteads. Although the ballot does not explain this, and leads some to believe that it is the same question as that submitted and passed last year, the voting this year will apply in 18 coast counties where partial remission of taxes was already in force, and which were not included in the homestead exemption provisions of the previous amendment, already voted. In other words, the new amendment merely brings the 18 counties under the same homestead amendment, and does not affect the rest of the counties that were voted upon last year.

#### Official Ballot

For amendment to article nine of the constitution of Texas, adding section three, providing authority for the adoption of a home rule charter by the voters in counties having a population of 62,000 or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein.

(Against the above amendment).

For the amendment to the constitution providing that the legislature may authorize the issuance of bonds of the state of Texas, not to exceed $20,000,000.00 for relieving the hardships of unemployment and for the necessary appropriation to pay said bonds.

(Against the above amendment).

### When Twister Cut Three-Mile Swath Through Oak Cliff

Here is a scene in Oak Cliff, the part of Dallas lying west of the Trinity river, after a tornado ripped its way through blocks of peaceful homes Sunday afternoon. Three were killed, twelve were injured critically and scores more were in hospitals when the skies cleared after the ravaging wind had gone its way. The path was about a block wide and several miles long, jumping some sections with the fickleness so typical of these death-dealing funnels

Morris subsequently flew to Washington and received the first check for his cotton from President Roosevelt personally. They are pictured on the ground where Morris' cotton stood. Congressman Kleberg smokes a pipe, wears a "cowboy straw" and boots in the photo. Others in the picture are members of the Nueces county cotton destruction committee.

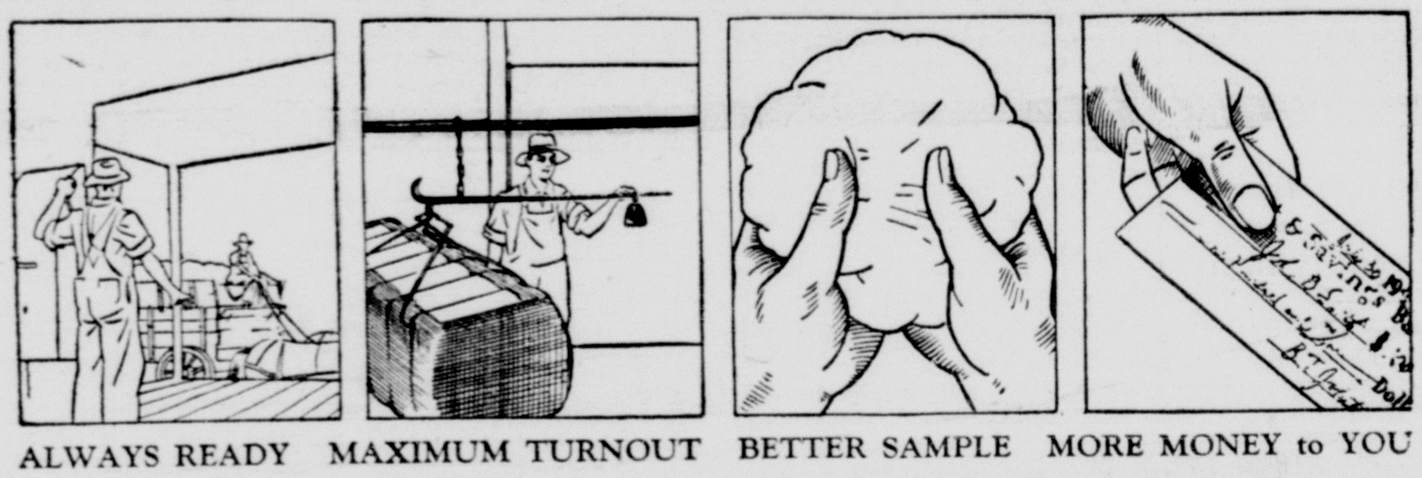
# Take Your Cotton to an *ELECTRIC* Gin . . .



ALWAYS READY MAXIMUM TURNOUT BETTER SAMPLE MORE MONEY to YOU

# *The* ELECTRIC GIN *Assures You* BETTER SERVICE, SAMPLE *and* MAXIMUM TURNOUT!

COTTON AUTHORITIES agree that the best sample and the best turnout are obtained when the gin saws are running at an even, steady, constant speed. This cleans the seed thoroughly without napping the sample. Electric gins give you this type of ginning, with the smooth, steady operation of the electric motor.

When you take your cotton to a gin that uses electricity for power, not only do you have assurance of a better sample and a maximum turnout, which mean more dollars to you, but you also avoid costly, irritating delays.

Regardless of the time, day or night, the electric gin is ready to go. The ginner merely throws a switch and the strong, even-pulling electric motors promptly put the gin in full speed. This is true in the middle of the season when things are running to capacity as well as early and late in the season when only a few bales come in.

The electric gin does not keep you waiting on the yard for a fireman to get up steam or while the ginner is adjusting a carburetor, inspecting nozzles or some other part of the engine. There are no engines to break down from failure of burned out connecting rods, bearings, cracked cylinder heads or whatnot. Just a switch that can be thrown in a fraction of a second, and a continuous flow of ample power is there until the yard is empty.

Electric gins are ready and waiting to gin your cotton on a moment's notice. Patronize the ginner who has provided modern, smooth, constant, steady-running electric motors to guarantee to his customers the best ginning results. Electric gins are safe from delays, accidents and other hazards.

**A TONIC Laxative**

CONSTIPATION, with the annoying symptoms that usually come with it, cuts down organic force and disturbs normal health and well-being. A thorough cleansing of the digestive tract is of great assistance in the removal of sickening constipation symptoms.

When excessive accumulated waste matter disturbs and strains the muscles of the large intestines, rendering them temporarily unable to perform their wave-like evacuating movements, Thedford's Black-Draught is useful in stimulating them to activity, which, again started, should continue regularly until some future disturbance interferes. In this way, Thedford's Black-Draught is one of the TONIC laxatives, tending, as it does, to establish a regular habit of evacuation.

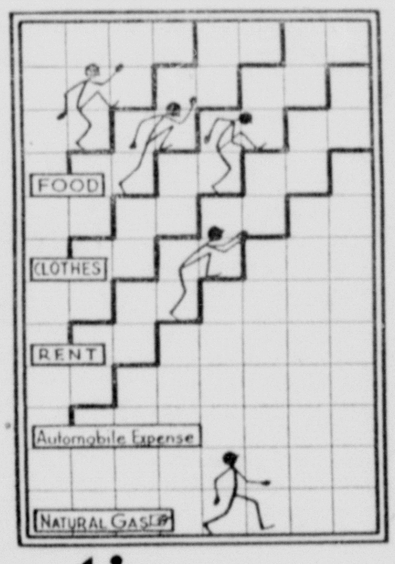
**Though Other Prices Natural GAS Remains Your Lowest Priced Domestic Servant**



PRICES are going up. So say the newspapers and business experts . . . so say the price tags in the stores. Food, clothing, commodities in general, are moving steadily to higher levels to meet changing conditions.

But Natural Gas Service, always your lowest priced domestic servant considering the value received, remains at its same modest price level. Instead of advancing to keep pace with other costs, it now becomes by comparison an even greater value than before.

Yes, you can still cook a dinner for three people, make 33 cups of coffee, or operate a gas refrigerator from 8 to 10 hours for a gas cost of only ONE CENT for each of these operations, because Natural Gas Service remains your lowest priced domestic servant!

Back of the blue flame at your gas burner are 4,000 miles of interconnected pipe line, 31 gas fields, and a trained organization . . . to enable you to have hot water for ten baths for only 5 cents.

## Got Over Weak, Painful Condition By Taking Cardui

"I was weak and run-down and suffered quite a bit with pains in my side," writes Mrs. Nick Barranco, of Beaumont, Texas. "I was nervous. I did not rest well at night, and my appetite was poor.

"My mother had used Cardui with beneficial result, so I decided to take it. I surely am glad I did, for it stopped the pain in my side and built up my general health. I took seven bottles in all."

For over 50 years, Cardui has been helping women just as this Texas lady describes above.

Cardui is sold at all drug stores.

## More Nuts by Budding

This native pecan tree budded to Delmos variety in 1922 began producing in 1930 and in 1931 bore 133 pounds of nuts for John Schroeder and Frank T. Kallus in their combination pecan grove and pasture on the banks of the Colorado river near La Grange, Texas. Their 45-acre pecan pasture is one of the rural show places of Fayette county. They gather about 8,000 pounds of nuts annually.

## MANY FROM COUNTY TO A. & M. SHORT COURSE

Milam count was well represented at the Short Course at A. & M. College July 24 to 28, with 28 representatives. Among them were 10 women, three girls and one boy, with Home Demonstration Agent Miss Bertha Fae Strange, present.

There were demonstrations on the making of moccasins from sheep and goat skins. Several pair were made by Milam county women and men and were included in the display at the moccasin exhibit Friday, July 28th.

Special interest was shown in improvement of products to be sold under Better 4-H product labels. Milam women are making plans to sponsor more than ever before, quality products as a part of their 1934 program.

The hooked rug and mat demonstration gave the women a better understanding of design, material as well as color combination to be used in the making of hooked rugs. The women are especially interested in seeing the beautiful rugs made from farm work clothes. Possibly a greater variety in rug making were noted for the curing and tanning of lamb skin for rug work, which would be an added feature for the Milam county women.

The utilization of Texas wool by Texas women was demonstrated by the hand weaving of wool and mohair. The resulting products were scarfs, bags, dress materials and rugs.

Grape juice for market purpose is practiced by several women of the county. The wild grapes found along the creeks and streams are used for this purpose. The Short Course demonstrations, giving the essential steps in grape juice making will enable these women to produce a better quality product for the market, as well as improving the product for home use.

The exhibit of quality of cakes and breads has stimulated interest in improving baking products. Plans are being made by Milam county women to have these products standardized for market purpose.

The College Dairy sponsored demonstrations in cheese and butter making.

## SENATOR POAGE TO VOTE FOR AMENDMENT REPEAL

Senator W. R. Poage in a letter to Allen V. McDonnell, candidate on the repeal ticket, has announced his intention to vote for repeal of the 18th amendment as follows:

"I have your letter of August 1st, asking my position on the repeal of the 18th amnedment and the legalization of 3.2 beer. While I believe that most of my constituents are acquainted with my position on this matter, I am always glad to give my views on any public question, and have my permission to make public this letter.

"I shall continue to extend every aid I can to the President's plan of economical recovery, and shall continue to do all in my power to carry out the platform demands of the party that I have always supported.

"I shall vote for the repeal of the 18th Amendment and for the legalization of the sale of 3.2 beer. I am constrained to so vote, not because I am any friend of the saloon and the old fashioned liquor traffic, but because I desire to join with President Roosevelt and the Democratic Party in a sincere effort to find a more effective method of liquor control. I do believe that a restoration of the control of the liquor business to the several states would be a proper recognition of the right of local self-government and would go a long ways toward breaking the power of the bootleg rings and the gang rule which have assumed such alarming proportions in this country under Federal prohibition.

"I think that the country has a right to look for a new and more honest deal in the administration of its liquor laws. I believe it will get this through local control, but the change must be effected by Constitutional and legal means and this to my mind means by the action of a majority vote of the people.

"This majority will, I believe, be forthcoming on the 26th day of this month. In the meantime, I think it is the duty of all good citizens eo abstain from violation of the existing laws.

"Yours very truly,
W. R. POAGE,
Senator 13th District."

## GOLD DIGGERS

Chain Gang" and Elmer the Great" in the past few months. Combined with LeRoy's ability to crowd dramatic and comedy incidents into close harmony in Busby Berkley's unerring sense of beauty, color and sensational effects with chorus ensembles. Out of this happy collaboration of effort comes "Gold Diggers of 1933."

Warner Bros. threw the entire resources of their great studios behind this production. The Avery Hopwood story has been adapted by Erwin Gelsey and James Seymour. The enormous sets designed for the Berkley chorus numbers were a seven day marvel in sensation satiated Hollywood. The cast equals the average drawing power of five successful pictures. All in all "Gold Diggers of 1933" is offered to the public now as the greatest single achievement in the history of the amusement industry.

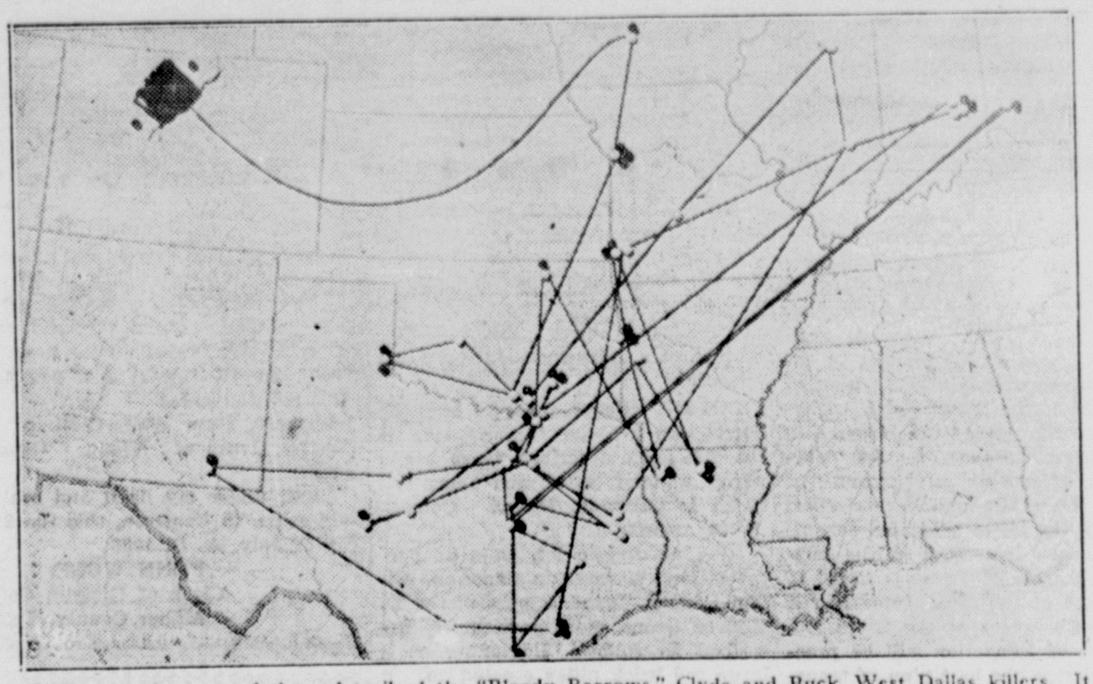
## Where "Bloody Barrows" Left Path of Crime Over Nation



Here is the map of the red trail of the "Bloody Barrows," Clyde and Buck, West Dallas killers. It hangs in the office of Sergeant D. E. Walsh, head of identification of the Dallas police department, who has kept the trail from the beginning of the Barrow careers until today. Six little black pins scattered over Texas, Oklahoma, Arkansas and Missouri represent murders; nine green pins in Texas, Oklahoma and Louisiana indicate auto thefts; eleven red pins in Ohio, Indiana, Iowa, Missouri, Arkansas, Oklahoma and Texas stand for assaults to murder; three yellow pins in Texas, New Mexico and Louisiana indicate kidnappings, and seven blue pins in Louisiana, Texas and Arkansas are for robberies. A red string traces the trail in chronological order. "I guess the little ball of twine will represent Clyde only in the future," said Walsh, when Buck Barrow died in Iowa.

## Lone Star Gas Ad Wins First Award For Third Year

For the third consecutive year, the Lone Star Gas System has won first prize in a national advertising copy contest among the major gas companies of the country. The winning ad, entitled "Natural Gas Is Your Lowest Priced Domestic Servant," was judged the best piece of copy among all advertising placed in newspapers by gas companies of the United States in the year 1932. Public Utilities Advertising Association, which conducts the contest, announced the award at its annual meeting held in Grand Rapids, Mich.

The prize ad appeared in this newspaper and more than 200 other Texas and Oklahoma papers in February last year. Copy was prepared by Willard C. Wiegel, assistant advertising manager of the Lone Star Gas System. Will C. Grant is manager of the advertising department. Western Newspaper Union set the type and made the stereotype plates and mats for the ad. Lone Star also won first prize last year in the same contest with an ad written by Mr. Wiegel and received first honors again in 1931.

The nation's best gas advertisement was a simple, direct statement of how much gas service a penny will buy. It stated that one cent's worth of natural gas service will cook a good dinner for three people, operate a bath room heater for two hours, heat enough water for two baths, operate a living room heater for 45 minutes, make 33 cups of coffee, heat enough water for 14 shaves or run a gas refrigerator for eight hours.
